## Verse

G

What King gives form to the formless

While commanding the darkness to light

The Word that was there in creation

Is creating within me new life

## Verse

G

What King would yield His position

His throne in the heavens above

To redeem those who had sinned against Him

Oh my soul bursts to life at this love

## Pre Chorus

What should we say

Of such wonderful things as these

What song can we raise

To the only one worthy

## Chorus

Jesus is Lord

Worthy of praise evermore

The beginning and the end, enthroned

Forever in glory

He is the Lord

Seated on hallelujahs

The lion and the lamb, behold

His kingdom is coming

## Turn

C

## Verse

G

What King would take on a cross

Wear a crown crudely fashioned with thorns

Innocent death was the cost

To ensure that the veil would be torn

## Pre Chorus

## Chorus

## Turn

C

## Verse

G

Lifeless He laid in the tomb

The sin of mankind now atoned

But He spoke the earth into motion

He could not be concealed by a stone

## Verse

Then out of the darkness He triumphed

Breathing life into bones of decay

King Jesus is reigning in victory

Our Savior has conquered the grave

## Chorus
